

KSU BOARD SELECTION INTERVIEW

Academic Year: 1446 (2024—2025)

5-YEAR ORL-H&NS RESIDENCY TRAINING PROGRAM

Otorhinolaryngology – Head and Neck Surgery

is a comprehensive 5-year training program designed to equip trainees with fundamental knowledge, clinical expertise, and professional conduct.

Throughout the program, residents will refine their diagnostic, investigative, and therapeutic abilities, while honing surgical skills across various subspecialties within otorhinolaryngology – head and neck surgery.

The goal is to ensure trainees are proficient in the management of prevalent otorhinolaryngologic conditions, capable of handling emergencies, and practicing safely and effectively.
